Proudly Serving Chicagoland Businesses since 1991!
Barter NOW More Than Ever!

Presidents Message: As Art of Barter enters its 25th year in business, we are pleased to announce some enhancements to our Company. We have expanded our sales efforts, added new tools, and additional staff. This month we embark on the conversion to new web based software that will provide a new and enhanced experience for our Training Partners as well as for our office operations.

You have been receiving your statement by email and if there was any type of activity during that month, you received a paper statement in the mail. Producing and mailing paper statements has become cost prohibitive. Rather than pass those costs on to our members, this is the last paper statement you will receive in the mail from Art of Barter.

On December 1st you receive your first statement generated by our new software by email and paper statements by request only. It will then be possible to send your statement to multiple email recipients should you wish. Soon you will be able to view your accounting history, sales, purchases, payments, 1099B's, and report trades online 24/7! Please be patient during this transition as we work hard to bring all these new features and more online for you.
